AiRISTA Among 50 Fastest Growing Companies

Read Silicon Review's interview with CEO, Sy Sajjad

"The company's sofia software platform extends the value of an RTLS solution beyond track & trace, to facilitate workflow orchestration with 2-way communicating tags and simplified integration."

"AiRISTA is honored to be recognized by Silicon Review in its annual survey of the 50 fastest growing companies". According to Sy Sajjad, CEO and founder. "To be included in this exclusive list is a reflection of AiRISTA's commitment to delivering RTLS solutions that provide real results for our customers. This year's 40% increase in staff has results in even bigger increases in revenue as we look forward to even more growth."

AI White Paper is Now Available

AI assisted real time insights like location will improve business decision making

Flow Studio, AiRISTA's Enterprise Event Bus, orchestrates combinations of AI engines through its drag & drop pallet.
AI capabilities can and should be built into the heart of the RTLS platform. Through AI, RTLS solutions will overcome many of the past challenges; ease of use, location accuracy, manageability, etc. But the real business value to RTLS platforms will be unleashed as they leverage the next-generation AI models and applications. Many of these AI engines are hitting the market now that the infrastructure, which drove the chip buying frenzy, is in place.

AiRISTA Recognized in 3 New Hype Cycles

The Gartner Hype Cycle provides a graphical framework of the maturity of emerging technologies through five phases.

1. Hype Cycle for Data, Analytics, and AI for Enterprise Communications Services, July 2024
2. Hype Cycle for Supply Chain Execution Technologies, June 2024
3. Hype Cycle for the Future of Work, July 2024

In most cases, AiRISTA is positioned along the Plateau of Productivity.

Gartner defines the Plateau of Productivity as, "The real-world benefits of the innovation are demonstrated and accepted. Tools and methodologies are increasingly stable as they enter their second and third generations. Growing numbers of organizations feel comfortable with the reduced level of risk; the rapid growth phase of adoption begins. Approximately 20% of the technology's target audience has adopted or is adopting the technology as it enters this phase."
